PROJECTS:

Beyond Basic Home: [Link: <https://www.beyondbasichome.com/>]

Developed a dynamic E-commerce website using WordPress, Elementor, and WooCommerce, ensuring optimized performance, intuitive navigation, and modern design for a seamless user experience. Focused on functionality, responsiveness, and user engagement.

VoltCart E-commerce Website (Personal Project): [Link: <https://voltcart-ecom-app.vercel.app/>]

A modern E-commerce platform built with React js, offering a seamless shopping experience for Electronic Items. It features dynamic product and blog data fetched from APIs, category and price-based filtering, smooth scrolling and animations using Lenis and Framer Motion, Shipping and GST calculation logic and a complete cart and checkout flow powered by Razorpay. It also includes EmailJS integration for contact inquiries and dedicated order success/cancellation pages for user-friendly experience.

Web Portfolio: [Link: <https://mohammedtalib786.github.io/portfolio/>]

A clean and modern portfolio showcasing my skills in HTML, CSS, JavaScript, React, WordPress, and etc. It highlights my projects, technical expertise, and experience as a web developer, with a strong focus on front-end development and UI/UX precision.
